PROFESSIONAL SUMMARY

Full-Stack Developer with hands-on experience building and deploying production-ready web applications using React, Next.js, TypeScript, and Tailwind CSS. Skilled in integrating RESTful APIs, third-party services (OpenAI, Supabase, GitHub API), and implementing full authentication flows with database persistence. Passionate about clean architecture, performance, and shipping polished user experiences. Actively seeking remote opportunities where I can contribute, grow, and collaborate with a team.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3

Frameworks & Libraries: React, Next.js, Tailwind CSS, shadcn/ui, Framer Motion, Recharts

Backend & APIs: Supabase (Auth + Database), REST APIs, OpenAI API (GPT-4.1-mini), NewsAPI, GitHub REST API, jsPDF

Tools & Platforms: Git, GitHub, Vite, Vercel, VS Code, Jest, npm

Concepts: Custom Hooks, Service Layers, Component Architecture, SSR/SSG, Responsive Design, Unit Testing, API Integration

PROJECTS

AI News Intelligence Dashboard *Mar 2026 – Present*

Tech: Next.js, React, TypeScript, Tailwind CSS, shadcn/ui, Supabase, OpenAI API, NewsAPI, Recharts, Jest | **Live:** ai-news-intelligence-dashboard.vercel.app

- Integrated NewsAPI and OpenAI GPT-4.1-mini to fetch live articles and generate on-demand AI summaries — demonstrating real-world third-party API integration and async data handling.
- Built an interactive analytics dashboard using Recharts, displaying topic frequency across saved articles with stat cards for total saves and unique sources — showcasing data visualization skills valued in full-stack roles.
- Implemented Supabase Auth with SSR cookie handling for full sign-up/login flow and per-user database persistence, matching the authentication patterns used in production applications.
- Delivered a fully responsive UI with a modal-based article viewer, save/unsave toggling, tag badges, and real-time AI summarization — optimized for both mobile and desktop.
- Wrote Jest unit tests covering article fetching and saved-article state management, demonstrating commitment to code quality and testing best practices.

GitHub AI Resume Analyzer *Feb 2026*

Tech: React, Vite, TypeScript, Tailwind CSS, Custom Hooks, Service Layer, OpenAI API, GitHub REST API, jsPDF | **Live:** ai-resume-builder-five-nu.vercel.app

- Built a full-stack AI tool that fetches a user's public GitHub repos, auto-detects skills, scores repos out of 10, and generates tailored resume bullet points for a target role using GPT-4.1-mini.
- Architected clean separation of concerns using a dedicated service layer and two custom React hooks (useGithub, useAI) — mirroring the modular patterns used in professional codebases and valued in technical interviews.
- Delivered polished UX with animated skeleton loaders, retry-capable error handling, dark/light mode toggle, and one-click PDF export — demonstrating attention to production-quality user experience.

EDUCATION

B.S., Information Science and Technology | 2024

Temple University — Philadelphia, PA

A.S., Computer Science | 2021

Bucks County Community College — Newtown, PA
